

Remarks

This amendment is also made to conform the application with the provisions of 37 CFR §§1.821 through 1.825. A replacement Sequence Listing in computer readable format and on paper is attached. The amino acid designation at position 16 of SEQ ID NO: 5 has been changed from "Tht" to "Thr". Support for this amendment can be found, for example, in Figure 7B, position 16, wherein a "T" appears (which is the one letter symbol for the amino acid "Thr"). Applicants respectfully assert that this correction is an obvious, inadvertent error in the sequence, and Applicants respectfully submit that no new matter has been introduced by way of this correction to SEQ ID NO: 5.

The Commissioner is hereby authorized to charge any fees under 37 CFR 1.16 or 1.17 as required by this paper to Deposit Account No. 19-0065.

Respectfully submitted,
